Turn your dreams into gardens...

Funkie Gardens now offers a free consultation service to help you plan and design your gardens. Listed below are questions that will help in the design process. Let us show you how easy it is to turn your dreams into gardens!

Name: _____

Address: _____

City/State/Zip: _____

Phone: _____

Your design consultation is scheduled for: _____

We will devote up to one hour of consultation time---enough time to provide you with valuable assistance in plant selection and placement. (We do not provide a formal scaled drawing or master plan.)

(If you downloaded this off our web site, please call Funkie Gardens at 715-262-5593 to set up a consultation time. Please keep in mind that we are extra busy on the weekends, so setting up a time during the week will allow us to devote our time exclusively to you.)

Please fill out the following questions to use as a guide for your appointment with our design staff.

Specify the area you would like to enhance or redesign, and what you would like to accomplish. _____

Would you like to enhance an attractive view? _____

Would you like to screen or camouflage an unattractive view? _____

New home: No existing plants: _____ Few existing plants: _____

Renovation: What existing plants to keep: _____

How many hours of sun and shade does the area receive on a daily basis and at what time of the day? _____

Is the area windy or protected? _____

Soil type: Wet or dry? _____ Good drainage? _____

How important is low maintenance in your gardens to you? _____

I like these plants...

Perennials: _____

Trees: _____

Shrubs: _____

Vines/Climbers: _____

Please bring any photos and measurements of the area to your consultation.

Sample site drawing:

A site drawing of the project area is very helpful for your consultation. Listed below are helpful dimensional information for measuring your specific site area. Also, a separate grid is provided for your project area sketch.

Measure the total area of your landscape you would like some help with. If it is a big area, consider breaking it up into several smaller pieces.

Decide on what scale your site drawing will be based. (e.g., 1 square=1 foot)
Indicate on site drawing.

Measure any buildings and include any first floor windows and doors. Place on site drawing.

Label all utilities within the project area: gas, phone, cable, electric, etc.

Label all household mechanical features located in the project area: air conditioning units, downspouts, dryer vents, hose bibs, etc.

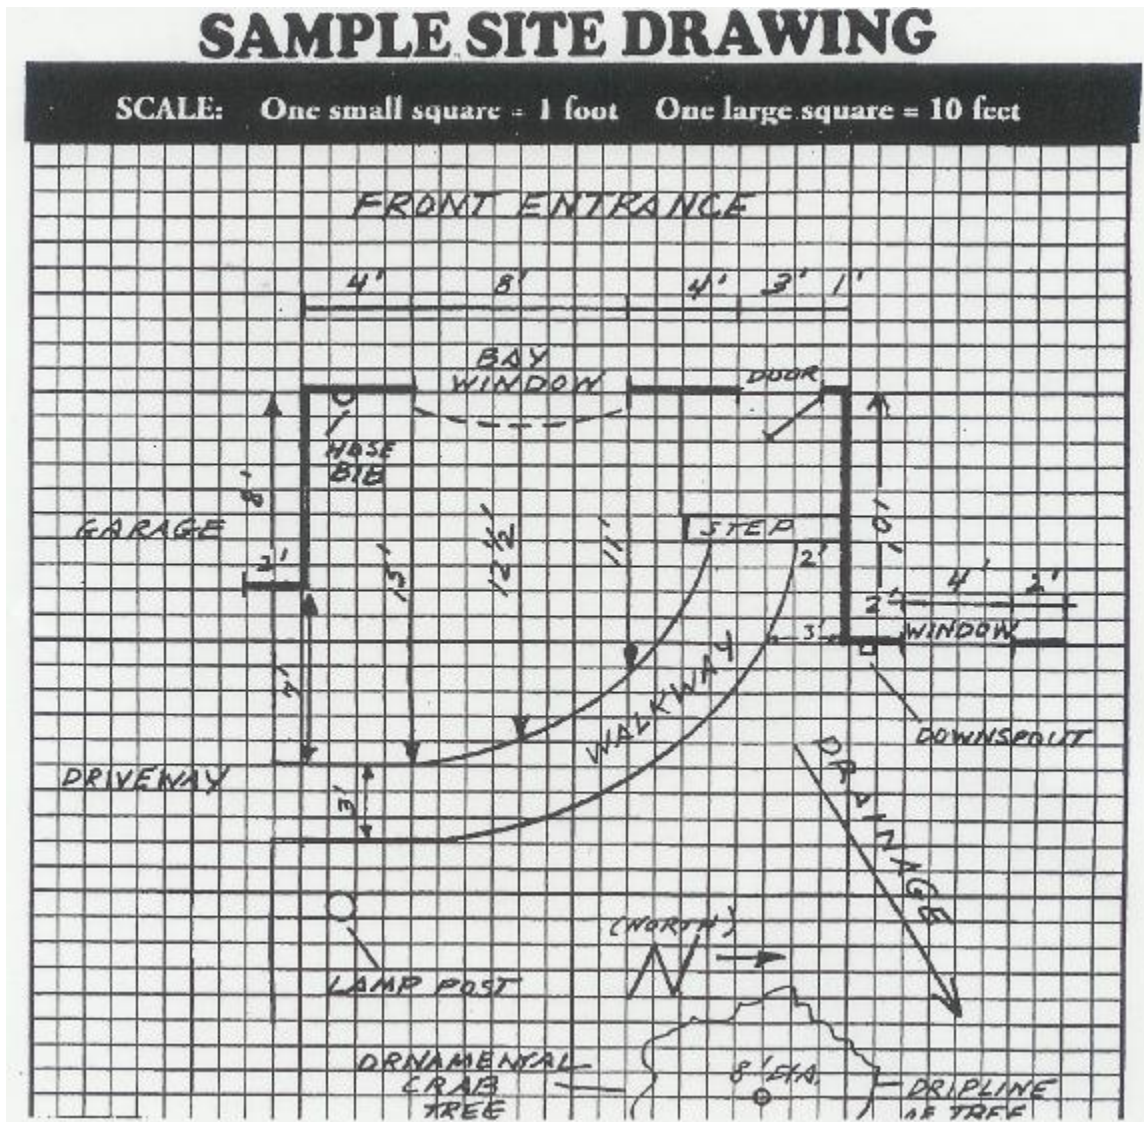

Label driveway, walkways, decks, porches, etc.

Locate and label any existing plants in the project area that will stay.

Note the direction water drains off, land slopes or terraces.

Label 'North' on site drawing.
